Education

George Mason University — Feb. 2017 – Aug. 2020
Ph.D. in Electrical and Computer Engineering — Fairfax, VA, USA

Oregon State University — Sept. 2014 – Dec. 2016
M.S. in Electrical and Computer Engineering — Corvallis, OR, USA

Tianjin University of Science & Technology — Aug. 2010 – June 2014
B.E. in Automation — Tianjin, China

Research Interests

Efficient AI Computing

- Edge & Mobile AI Model Acceleration
- LLM Compression & Adaptation
- Federated & Decentralized Learning

Intelligent Sensing & Neural-Machine Interfaces

- Neural-Machine Interfaces
- Real-Time Gesture Recognition & Rehabilitation Systems
- Wearable/Edge-Based Biomedical Sensing

AI for Education

- Human-centered AI Systems
- Intelligent Tutoring Platforms for Engineering Education
- Teaching Support Platforms for Neurodiverse Students

Experience

San Francisco State University — Aug. 2026 – Present
Associate Professor, Computer Engineering, College of Science & Engineering — San Francisco, CA

San Francisco State University — Aug. 2020 – Aug. 2026
Assistant Professor, Computer Engineering, College of Science & Engineering — San Francisco, CA

Publications

Summary: 38 published/accepted publications, including 26 since joining SFSU (2020–Present), with 5+ manuscripts under review. Total citations: 900+; h-index: 12; 100+ citations per year on Google Scholar.

Funding

Summary: 13 funded/completed projects totaling $2.0M overall: 5 as PI (about $221K) and 8 as Co-PI (about $1.81M).

Completed

[1] Sony Sensing Solution University Program
Project title: Efficient and Robust Deep Learning Models for Neural-Machine Interfaces with Spresense Microcontroller.
Role: PI
Project Period: 09/2024–08/2025
Approved budget: $14,118; Hardware Donation: $6,696

[2] Sony Sensing Solution University Program
Project title: Neural2: Efficient Deep Neural Network for Neural-controlled Bionic Arm with Spresense Microcontroller.
Role: PI
Project Period: 09/2023–09/2024
Approved budget: $26,600

[3] SF State Research, Scholarly and Creative Activity (RSCA) Fund 2023
Project title: Intelligent Wireless Spectrum Monitoring with Decentralized On-device Learning
Role: PI
Project Period: 2024–2025
Approved budget: $18,500

[4] SF State Research, Scholarly and Creative Activity (RSCA) Fund 2022
Project title: Towards Collaborative On-device Intelligence by Interpreting Black Box of Deep Neural Networks
Role: PI
Project Period: 2023–2024
Approved budget: $11,915

[5] National Science Foundation
Project title: ELITE: Enhancing Learning through Innovative Teaching Equipment
Role: Co-PI (PI: Dr. Zhaoshuo Jiang)
Project Period: 10/2024–09/2025
Approved budget: $196,135

[6] Department of Defense
Project title: Developing new research and teaching capabilities in Understanding Dynamic Systems and Control Theory at SFSU
Role: Co-PI (PI: Dr. Zhaoshuo Jiang)
Project Period: 08/2024–08/2025
Approved budget: $541,514

[7] Department of Defense
Project title: Acquisition of Instrumental Treadmill, Markerless Motion Capture, and Human-Machine Equipment for a Human-Machine Performance Laboratory to Enhance Research in Engineering and Kinesiology at SFSU
Role: Co-PI (PI: Dr. David Quintero)
Project Period: 06/2024–05/2025
Approved budget: $409,434

[8] Ken Fong Translational Research Fund
Project title: Continuous Grasping Adaptation from Multi-Mode Sensory Fusion for a Hand Rehabilitation Exoskeleton
Role: Co-PI (PI: Dr. David Quintero)
Project Period: 2024–2025
Approved budget: $24,664

[9] STEM-NET Faculty Interdisciplinary Collaborative Research SEED Grant Program
Project title: Development of a physical frailty assessment system through a socio-technical lens
Role: Co-PI (PI: Dr. Charmayne Hughes)
Project Period: 2023–2024
Approved budget: $25,000

[10] CSUPERB Industry Partnership Initiative Grant Program
Project title: mAtas: Computer-vision-based System for Post-stroke Range of Motion Evaluation.
Role: Co-PI (PI: Dr. Charmayne Hughes)
Project Period: 2022–2023
Approved budget: $15,000

Funded (In Progress)

[1] California Education Learning Lab
Project title: SCAPE: Student-centered Collaborative AI Platform for Personalized Engineering Learning Experience
Role: PI
Project Period: 03/2025–01/2027
Approved budget: $150,000

[2] National Science Foundation
Project title: Interdisciplinary Research and Education through the Development of AI-assisted Home Health Monitoring Systems
Role: Co-PI (PI: Dr. Zhaoshuo Jiang)
Project Period: 05/2025–07/2027
Approved budget: $199,930

[3] National Science Foundation
Project title: Supporting Neurodiverse Students in Engineering Teamwork through an AI-Driven Platform
Role: Co-PI (PI: Dr. Yiyi Wang)
Project Period: 10/2024–09/2027
Approved budget: $399,979

Awards

- First Place, The KumoRFM Hackathon Challenge (as faculty advisor) *2025*
- SFSU Campus-wide Winner, Area of Education (Undergrad-Level), CSU Research Competition (as faculty advisor) *2025*
- Honorable Mention Award, Area of Education (Undergrad-Level), CSU Research Competition (as faculty advisor) *2025*
- Third Place Award, Psychology, Human Geography, and Science Education Category, CoSE Project Showcase, SFSU (as faculty advisor) *2025*
- Grand Prize, Sony's Spresense Developer Challenge (as faculty advisor) *2022*
- First Prize, IEEE Services Hackathon *2020*
- Summer 2020 Research Fellowship, GMU, Fairfax, VA *2020*
- Best Poster Award, The 4th ACM/IEEE Symposium on Edge Computing, USA *2019*
- Richard Newton Young Fellow Award, The 54th ACM/IEEE Design Automation Conference, USA *2017*
- OSU Continued Success Scholarship, OSU, Corvallis, OR *2015*
- Thesis Design Award as Outstanding Graduate (20/535), TUST, Tianjin, China *2014*
- Honorable Mention, "TI Cup" Tianjin Electronic Design Competition for College Students, TUST, China *2012*
- Outstanding Individual (25/535), TUST, China *2012*
